

Sultan of Brunei

While heading for the Strait of Malacca **KITTY HAWK** hosted its first head of state of the cruise.

The Sultan of the tiny, oil-rich nation of Brunei was welcomed aboard with full pomp and ceremony.

A tour of the ship included the opportunity to view flight operations from the bridge. The official party later viewed a firepower demonstration put on by the squadrons of Air Wing Nine.

When the visit ended later in the day, the Sultan had a better idea of the capabilities of the **KITTY HAWK**/Air Wing Nine team.

The **KITTY HAWK** then continued on her way to the Indian Ocean.
