### SUKI-YAKI IN YOKOSUKA

Taking a well-earned respite from more strenuous and deadly pursuits, ship's company personnel of the SICILY enjoyed a full-fledged suki-yaki party in Yokosuka, Japan. For the benefit of the uninitiated, suki-yaki is a sometimes-palatable conglomeration of assorted food-stuffs and is considered one of Japan's national dishes. Geishas, dressed in their traditional robes, prepared the meal on the spot and served it in elegance and style.
