

## “PEARL”

On a sunny tropical morning in November Manchester men came to Pearl Harbor. We had two weeks and two days to see the night and day splendor of Waikiki . . . to motor to the “other side” of Oahu . . . and to drink beer and kick up some sand on Nimitz Beach. Each of us knew the Manchester soon would be in the Yellow Sea where the water was cold and the wind very unfriendly. Ours was to live and breathe the Hawaiian essence of every minute, every day.
